

# Important Things For You to Remember About...

## Hazard Communication

YOU HAVE A RIGHT TO KNOW ABOUT:

- OUR WRITTEN PROGRAM
- HAZARDOUS CHEMICAL LIST
- MATERIAL SAFETY DATA SHEETS

### Container Labels

- Must be on all containers
- Always read and understand
- Never remove or cover labels
- Replace if not legible

### Safe Chemical Handling

- Read, understand and follow label, MSDS and work instructions
- Check to be sure labels are in place and legible
- Never mix chemicals unless instructed; store and handle properly
- Wear all personal protective equipment
- Wash hands after use

### Material Safety Data Sheets

- Know where the file is located
- Read to learn safe handling
- Use for emergency situations
- Are available to you, ask your supervisor

### Chemical Hazards

- Health
- Physical

#### *Exposure Routes:*

- Inhalation
- Ingestion
- Absorption

## HAZARD COMMUNICATION: THE 'RIGHT TO KNOW' LAW
